Doug Collier — Candidate for President, AMFA Local 11

Experience. Leadership. Accountability. Putting Our Members First.

I am running for President of AMFA Local 11 because I believe our membership deserves experienced, accountable leadership that understands the work we do and remains focused on serving our members.

I have been an aircraft mechanic and inspector at Southwest Airlines since 1986. For nearly four decades, I have worked alongside our members and experienced firsthand the demands of our profession and the importance of having a union that operates effectively and responsibly.

My union experience began before AMFA Local 11, when I served as a Shop Representative at our former union local. Within AMFA Local 11, I served as Treasurer from 2003 through 2010 and have served as Vice President since 2013. These positions have given me extensive experience in union administration and the responsibilities that come with serving our membership.

Over the years, I have worked at most of our bid locations, alongside members across our operation, giving me a perspective that comes from being in the workplace and being part of this membership. As President, I will focus on sound administration, accountability, transparency, and responsible stewardship of our Local's resources, while keeping our members' interests at the forefront.

I believe union leadership should be accountable, accessible, and transparent. Members should have confidence that our Local is being managed professionally and responsibly. After nearly 40 years as a mechanic and inspector and more than two decades serving in union office, I am prepared to take on the responsibility of President and continue serving the members of AMFA Local 11.

I respectfully ask for your support and your vote for President of AMFA Local 11.

Doug Collier
Experience you can count on. Leadership you can hold accountable.
